I contacted the Mercer Island High School Superintendent, Fred Rundle, and advised him of the allegations. Fred advised [REDACTED] had been placed on administrative leave since 12/14/2023. Fred advised he was working with the school district HR admin, Erin Battersby on identifying possibly emails from his account associated with suspicious behavior.

Erin advised when she spoke with [REDACTED] and advised him that he would be placed on administrative leave as allegations against him had been made. I was advised [REDACTED] responded with one student or multiple students. His next question was when was it from. Can you at least give me the names. Erin advised she did not provide him with this information.
